

## Quick Tips

### Apple ID

For all iPhone or iPad users, you will need an Apple ID in order to download apps from the app store. Before you start, it is best for you to have an email address before you set up an Apple ID. This can be any email service like Gmail or Yahoo.

**Once you have an email address you can follow these steps to set up your Apple ID:**

1. Tap the **App Store** on your device
2. Tap the **sign-in** button.
3. Tap **Create New Apple ID**.
4. Follow the steps on the screen to enter your date of birth and your name and other information that's required. Tap **Next**.
5. Type your email address. This will now become your **Apple ID**.
6. Tap the toggle for whether you want to get Apple News & Announcements or not. Tap **Next**.
7. Create a secure password and then type it again to verify it. Tap **Next**.
8. Input your phone number and select whether you want to receive a text message or a phone call for identity verification. Tap **Next**.
9. Enter the verification code that was sent to you. Tap **Next**.
10. Tap **Agree** to accept the **Terms and Conditions**.
11. Tap **Agree** again to confirm.
12. Make sure that your country is set to Ireland.

**What to do if you forget your Apple ID password?**

This happens all the time so no need to worry. If you follow the step at the link below you will be able to reset and create a new password
